Stainless Steel Submersible Well Pumps

WILO 8" TWI Series (formerly NR Series)

Product Brochure.

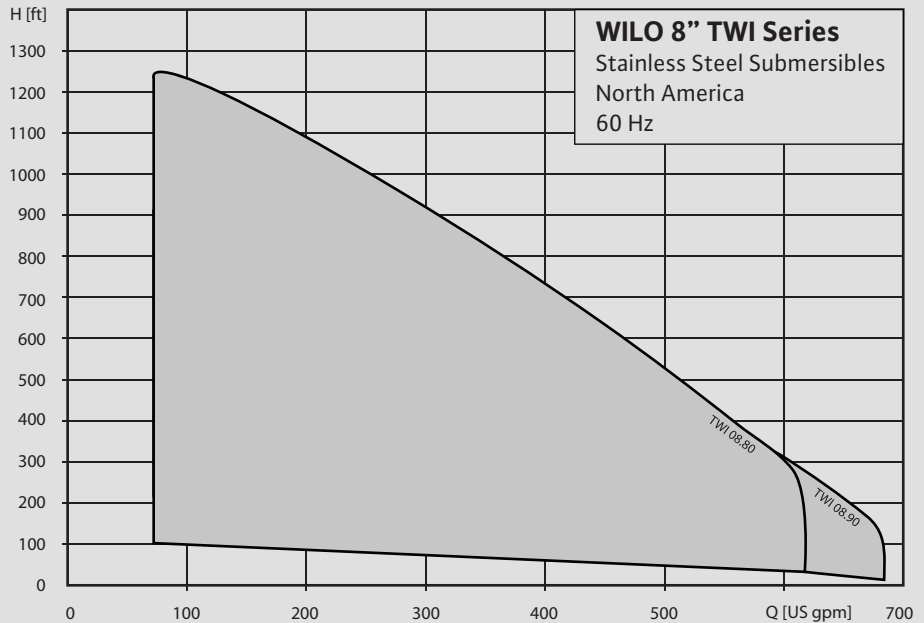

WILO 8" TWI Series (formerly NR Series)

Stainless steel submersible well pumps

The WILO TWI 8" submersible well pump supplies water from borehole wells with a minimum diameter of 8" with a maximum immersion depth of 350 meters (1200ft). This submersible pump is ideal for municipal water supply, irrigation, pressure boosting, dewatering and industrial applications. Featuring 100% stainless steel construction, more spot welds, and heavier materials than most competitor models, a built-in non return valve, and standard NEMA connection Franklin motors, the TWI series is in a class of its own – We call it *Pumpen Intelligenz*.

WILO 8" TWI Series

100% Stainless Steel Construction!

Powered by:

Franklin Electric

- 100% Stainless steel construction
- Flows up to 680 USGPM
- Heads up to 1250 feet
- Built in non-return valve
- High-quality coupling
- More spot welds than many competitor models
- Vertical or horizontal installation possible
- Fluid temperature from 40°F to 90°F (3°C to 30°C)
- Max sand content 80 g/m
- Optional control box available
- Power supply 1~115/230 V, 60 Hz
3~208/230/460 and 575 V, 60 Hz
