# Stainless Steel Submersible Well Pumps WILO 8" NR Series

*Product Brochure.*

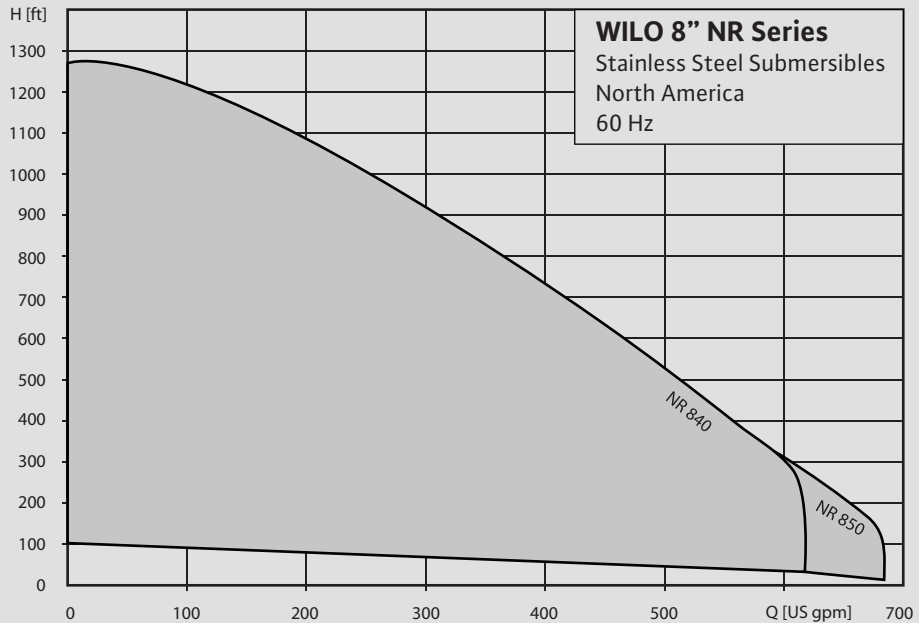

# WILO 8" NR Series

## Stainless steel submersible well pumps

The WILO NR 8" submersible well pump supplies water from borehole wells with a minimum diameter of 8" with a maximum immersion depth of 350 meters (1200ft). This submersible pump is ideal for municipal water supply, irrigation, pressure boosting, dewatering and industrial applications. Featuring 100% stainless steel construction, more spot welds, and heavier materials than most competitor models, a built-in non return valve, and standard NEMA connection Franklin motors, the NR series is in a class of its own – We call it *Pumpen Intelligenz*.

### WILO 8" NR Series

### 100% Stainless Steel Construction!

Powered by:

**Franklin Electric**

- 100% Stainless steel construction
- Flows up to 680 USGPM
- Heads up to 1270 feet
- Built in non-return valve
- High-quality coupling
- More spot welds than many competitor models
- Vertical or horizontal installation possible
- Fluid temperature from 40°F to 90°F (3°C to 30°C)
- Max sand content 80 g/m
- Optional control box available
- Power supply 1~115/230 V, 60 Hz  
3~208/230/460 and 575 V, 60 Hz
